f. During this reporting period the Classification, Repair and Disposal Section (CR&DS), Logistics Operations Center, delivered 89 line items of excess government equipment to the General Services Administration (GSA) Sales Center for sale via public auction. Total value \$169,236.00. However, the increase in turn-ins is perpetual as property received for disposition consisted of 204 line items of equipment with a combined value of \$1,221,578.00. i. Foundation work on [REDACTED] Logistics Operations Center, came to a sudden and unplanned halt due to the inclement weather. Hopefully, the weather will improve quickly so that work may resume. The contractor estimates that at least 30 days will be required to complete driving of the foundation piles. [REDACTED]

j. Although fully operational, sporadic clean-up work continues on the dock enclosure project at the Logistics Operations Center. On Saturday, 8 November 1986, the contractor painted all interior walls and installed the sprinkler system. Although the contractor has promised repeatedly that all work will be completed by 14 November, we will continue to prod him to meet the deadline. [REDACTED]
